- Wattage standard bulb: 60 W
- Fitting/Cap: E14
- Voltage: 220-230 V
- EEL: C
- Dimmable
- Lifetime of lamps: 2 year(s)
- Lifetime of lamps: 2000 hour(s)

Highlights

Best dimmibility
This lamp can be used in combination with all dimmers and will not only turn down the light to 1% but also create a cosy atmosphere as you are used to with your incandescent.

No hazardous substances
LED lamps contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.

Look and feel as traditional lamps
These lamps are designed to look like a traditional incandescent bulb, candle, lustre or spot. Similar look and feel, but a smarter investment.

Bright light
Bright light energises and enhances your work and play. This light can help you stay focused making tricky tasks simpler.

Instant start
Immediate light when switched on: that is the promise of our instant starting energy-saving lamps.

Carbon footprint
Energy savers reduce the amount of energy in your home, which results not only in a lower energy bill, but also in less carbon (CO2) output by your energy supplier. Together we make this a better world to live in.

Energy efficient
All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use fewer kW and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

Reliable quality
Philips keeps its promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime and wattage equivalent to incandescent lamps.
